Our Junior Stylist program has employed, developed, and promoted more than a dozen newly licensed professionals in just the last 3 years. Some of our most successful six figure stylists once started as a Junior Stylist in this particular program. It is one we take tremendous pride in, as we believe in empowering the next generation of beauty industry leaders.

The right candidate will love our culture of empowerment, education, professionalism, team work and goal oriented growth systems. The right candidate for this position will be interested in a stepping stone position that will cover all aspects of building a successful styling career.

We cover 5 fundamental steps in this position. Most Junior stylists are ready to take on a full time chair within 12 to 18 months of hire date.

One of the areas that can feel intimidating for a beginning professional is quantity of calls and inquiries a busy salon receives. Our front end program trains and empowers Junior stylists to master scheduling procedures and how to effectively communicate and best maximize a Styling schedule. Luscious & Co takes pride in our consultative approach. Junior Stylists are introduced to this very early in their careers with us by observing and training alongside of some of our busiest Stylists. Getting comfortable with strong communication is one of our top priorities and is believed to be one of the biggest building blocks to your future as a leading Stylist.

With a focus on education and resourcefulness, we believe that including our Junior team in our day to day inventory and operations is a crucial step to becoming a well-rounded Beauty professional. During this phase of the Junior program, team members will work alongside of the management team to better understand the full product line, its merchandising position, inventory logistics and operations.
